**Functional Abilities + Tasks =
Proper Solution**

- Mass customization
- A massive online laboratory for tech developers
- A self-sustaining **advertising** platform and donation generator

- Scientific knowledge doubles every 10-15 years, but not for disability
- Inventors/creators are not sharing knowledge often enough or effectively enough
- Better info exchange is crucial for growth in the AT field, as well as the advancement of the well-being of people with disabilities

COMMUNICATION & INNOVATION

- Fundamental changes in the way people live, work, and thrive with disabilities
- This is a **3.5 million** dollar project
